

## Alpha-Lipoic Acid

Antioxidant Support\*

### Alpha-Lipoic Acid Supplementation

NutriDyn's Alpha-Lipoic Acid is a potent formula for supporting antioxidant activity in the body and energy production from carbohydrates.\* Alpha-lipoic acid (ALA) is a ubiquitous antioxidant and acts as a co-substrate to enzymes involved in cellular respiration (i.e., the process by which nutrients are converted to energy).

ALA is naturally produced in humans and is present in nearly all foods. However, endogenous ALA and ALA sourced from foods are typically not readily available for use in the body as they are often bound to enzyme complexes.

Read on to learn more about how ALA works to support energy production throughout the body, support carbohydrate absorption, and act as an antioxidant.\*

Given the nature of ALA for supporting overall health and well-being, supplementation can assist users in a multitude of ways.\* These evidence based benefits may include:

- Supports energy production\*
- Supports antioxidant activity in cells throughout the body\*
- Supports healthy blood sugar balance\*

### How Alpha-Lipoic Acid Works

In healthy individuals, ALA is found abundantly in metabolically demanding tissues and organs throughout the body, particularly the heart, brain, kidneys, liver, and skeletal muscles. As an integral part of cellular respiration, ALA assists in the synthesis of ATP—the energy currency of cells—from nutrients (particularly carbohydrates). It is suggested that supplementation prior to consuming a carbohydrate-based meal may support healthy blood glucose levels.\*<sup>1</sup>

Moreover, research has demonstrated that ALA has strong antioxidant properties throughout the body, purportedly by modulating gene transcription to support healthy oxidative stress levels.\*<sup>2</sup>

# Supplement Facts

Serving Size: 1 Capsule  
Servings Per Container: 100

Ingredients	Amount Per Serving	%DV
Alpha-Lipoic Acid	200 mg	*

**Other Ingredients:** Microcrystalline cellulose, hydroxypropyl methylcellulose, vegetable magnesium stearate.

**Directions:** Adults take one capsule daily as a dietary supplement or as directed by your healthcare practitioner.

**Caution:** If you are pregnant, nursing, or taking medication, consult your healthcare practitioner before use. Keep out of reach of children.
